DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance: With respect to claims 1, 8 and 15 the closest prior art of record Sheffer (5,515,419) discloses a tracking system having an integrated personal protection system in which a voice channel is shared between an alarm data transmission and a voice signal during an emergency (see col. 6, lines 22-45). The instant invention discloses an alarm system, a method of operating an alarm system for use in a wireless voice network capable of voice communication and having a wireless central monitoring station, an alarm system and a wireless voice network capable of voice communication that include a local transceiver, configured to establish, in response to a received stimulus, a wireless link of diminished bandwidth over the voice network to the wireless central monitoring station that has a bandwidth insufficient to provide commercially-acceptable quality of service standards for voice communication. Sheffer fails to teach or fairly suggest the above novel feature in combination with all the recited limitations of claims 1, 8 and 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
